Benguluru, Karnataka - 560068, India

OBJECTIVE

Looking for a dynamic role in software engineering where I can apply my knowledge of the software development lifecycle, system design, and modern development practices. Eager to work on real-world challenges that drive innovation and enhance user experience.

EXPERIENCE

- Software Development Engineer - I** Jun 2024 - Present
Quid Social Private Limited Benguluru, India
 - Built and enhanced a Supply Chain Financing BNPL and Lender Management Platform, delivering full-stack features such as credit onboarding, underwriting modules, client integrations, and operational dashboards.
 - Contributed to architecture decisions and cross-team collaboration while optimizing APIs and UI components to ensure scalability, performance, and high code quality.
- Tech Stack:** Next JS, TypeScript, Node JS, Fastify, Postgres SQL, Mongo DB, Fast API, Zustand, React, Tailwind CSS, Docker and Git

EDUCATION

- JK Lakshmipat University** Jun 2020 - Apr 2024
B.Tech in Computer Science Jaipur, India
 - GPA: 7.796/10.0

PROJECTS

- NourishNet: Digital Platform for Streamlining NGO Food Donations** Sept 2023 – Dec 2023
Tools: [MongoDB, Express.js, React, Node.js, Git] 
 - Built a platform to streamline NGO food donation workflows with real-time donor and request management.
 - Developed cloud-backed APIs, database integrations, and intuitive dashboards for donors and volunteers.
- GrowConnect: Direct Crop Marketplace for Farmers and Consumers** Jan 2023 – May 2023
Tools: [MongoDB, Express.js, React, Node.js, Git] 
 - Built a platform enabling farmers to directly list and sell crops to consumers, ensuring fair pricing.
 - Designed simple, user-friendly interfaces for crop listings, browsing, and transactions.

SKILLS

- Programming Languages:** Javascript, Typescript, Python
- Web Technologies:** React js, Next js, Node js, express js, fastify, zustand
- Database Systems:** MySQL, Postgres SQL, Mongo DB
- Version Control:** Git, Github, BitBucket, Docker
- Specialized Area:** Full-Stack Development, REST API Design, Software Architecture

CERTIFICATIONS

- University of Colorado System:** [Computer Communications](#) Feb 2023
- EC-Council:** [Ethical Hacking Essentials](#) April 2023
- IBM:** [Introduction to DevOps](#) April 2023
- University of California San Diego:** [Data Structures](#) Feb 2023

ADDITIONAL INFORMATION

Languages: English (Proficient), Telugu (Native), Hindi (Fluent)
Interests: DevOps, Software Development, System Architecture

ACHIEVEMENTS

- Grand Finalist** -XR META Startup Program by Meta 2023
- Secured Rs.50,000 in MVP Funding** for startup Vihari during early-stage development 2023
- Winner – Coprova Startup Event**, recognized for innovation and business model viability 2023
